ABOUT ME

Motivated and detail-oriented Software Engineering undergraduate at the University of Peshawar with a solid foundation in modern web technologies and core engineering principles. Experienced in building responsive, user-friendly, and full-stack applications using the MERN stack and Next.js. Passionate about solving real-world problems through clean code, structured data architectures, and continuous self-learning.

EDUCATION

University of Peshawar

Bachelor of Science in Software Engineering (CGPA: 3.66/4.00)

Peshawar, Pakistan

2024 – 2028

Islamia College Peshawar

FSC (Pre-Engineering)

Peshawar, Pakistan

2021 – 2023

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+), Responsive UI
- **Backend & DB:** Node.js, Express.js, RESTful APIs, MongoDB, MySQL
- **Languages & Tools:** JavaScript, C++, SQL, Git, GitHub, VS Code, Photoshop
- **Core Concepts:** Data Structures & Algorithms (DSA), OOP, Database Systems, Web Engineering

PROJECTS

Full-Stack E-Commerce Platform – [Live Demo](#)

(Next.js, Tailwind CSS, MongoDB)

- Architected a fully responsive, full-stack e-commerce solution utilizing Next.js for high-performance server-side rendering and static generation.
- Developed structural catalog pipelines supporting tech product deployment across categories like laptops, phones, watches, and headphones.
- Engineered a secure, functional admin dashboard implementing CRUD mechanics to seamlessly add, update, and delete product inventories dynamically.

Job Portal Application – [Live Demo](#)

(Next.js, Tailwind CSS)

- Engineered a full-stack recruitment platform using Next.js for server-side rendering, improving page load speeds by 30%.
- Implemented dynamic UI layouts with Tailwind CSS, ensuring pixel-perfect responsiveness across mobile and desktop.
- Constructed functional multi-criteria search and state-driven filtering workflows to optimize the applicant parsing flow.

Expense Tracker Application

(JavaScript, HTML5, CSS3)

- Engineered a dynamic financial tracking web application featuring real-time income and expense management.
- Implemented dynamic state updates for balance calculations and leveraged browser LocalStorage for data persistence.

React Portfolio Website

(HTML5, CSS3, JavaScript, Vercel)

- Architected a modern personal portfolio utilizing a clean, scalable component-based structure in React.
- Designed fluid layouts optimized for multiple viewports to showcase personal engineering milestones.

LANGUAGES & INTERESTS

- **Languages:** English (Professional), Urdu (Fluent), Pashto (Native)
- **Interests:** Full-Stack Web Development, Open Source Contribution, Cloud Computing, Technical Problem Solving
